Ma'am,

I apologize for the delayed response, I have taken time to consider how to proceed. Would you be amenable to me providing a sanitized version of the e-mail removing information I believe would assist in determining my identity for you to then use? I would also ask that my email address not be sent and the body of the email be copied and pasted rather than the e-mail forwarded as it is possible to determine details that can lead to identification by one's e-mail address.

Thank you for reaching out to me and for your service to Prince William County. We're clearly of one accord when it comes to this survey.

I will do my best. The best thing I can probably do at this point is to try to get some media to cover the survey to highlight and expose this survey for its intrusive questioning. A couple of years ago, this office put out a similar survey and after they did not receive the feedback they hoped for the topic was never brought up again. I have no doubt Ms. Burgos has still been successful in forcing her insidious and divisive agenda into every office and department in the county, but the Board chose not to publicly support the proposals after the public pushback.

Would you be agreeable to me forwarding your e-mail along to some of my media contacts with a copy of the survey? You would obviously remain anonymous per your desire in the e-mail below.

Thank you,

P.S. I've copied my Chief of Staff on this e-mail for his awareness.

A handwritten signature in black ink, appearing to read "Yesli Vega".
